

Plastics	Year 1	Year 2	Year 3
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: NSAIDs.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: antibiotics.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: antifungals.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: narcotic analgesics.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: muscle relaxants.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: medications for neuropathy.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: sedative/hypnotics.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: peripheral vascular agents.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: anticoagulants.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: antihyperuricemic/uricosuric agents.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: tetanus toxoid/immune globulin.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: laxatives/cathartics.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: fluid and electrolyte agents.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: corticosteroids.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of:			

antirheumatic medications.			
Appropriate non-surgical management when indicated, including: pharmacologic management, including the use of: topicals.			
Assess and manage the patient's general medical status. Perform and interpret the findings of a comprehensive medical history and physical examination (including preoperative history and physical examination), including: comprehensive medical history.			
Perform and interpret the findings of a comprehensive medical history and physical examination (including preoperative history and physical examination), including: comprehensive physical examination, including: vital signs.			
Comprehensive physical examination, including: physical examination, including: head, eyes, ears, nose, and throat (HEENT).			
Comprehensive physical examination, including: physical examination, including: neck.			
Comprehensive physical examination, including: physical examination, including: chest/breast.			
Comprehensive physical examination, including: physical examination, including: heart.			
Comprehensive physical examination, including: physical examination, including: lungs.			
Comprehensive physical examination, including: physical examination, including: abdomen.			
Comprehensive physical examination, including: physical examination, including: genitourinary.			
Comprehensive physical examination, including: physical examination, including: rectal.			
Comprehensive physical examination, including: physical examination, including: upper extremities.			
Comprehensive physical examination, including: physical examination, including: neurologic examination.			
Assess and manage the patient's general medical status. Formulate an appropriate differential diagnosis of the patient's general medical problem(s), which includes diagnoses in the following tabular ICD-9 subsections (Please refer to Index A for complete listing of appropriate diagnoses).			
Assess and manage the patient's general medical status. Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: EKG.			
Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: medical imaging, including: plain radiography.			

Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: medical imaging, including: nuclear medicine imaging.			
Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: medical imaging, including: MRI.			
Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: medical imaging, including: CT.			
Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: medical imaging, including: diagnostic ultrasound.			
Assess and manage the patient's general medical status. Recognize the need for (and/or orders) additional diagnostic studies, when indicated, including: other diagnostic studies.			
Assess and manage the patient's general medical status. Formulate and implement an appropriate plan of management, when indicated, including: appropriate therapeutic intervention.			
Practice with professionalism, compassion, and concern, in a legal, ethical, and moral fashion. Practices and abides by the principles of informed consent.			
Demonstrate the ability to communicate effectively and function in a multi-disciplinary setting. Communicate in oral and written form with patients, colleagues, payers and the public.			
Demonstrate the ability to communicate effectively and function in a multidisciplinary setting. Is able to partner with health care managers and health care providers to assess, coordinate and improve health care.			
Demonstrate the ability to communicate effectively and function in a multidisciplinary setting. Maintains appropriate medical records.			
Has the capacity to manage a podiatric practice in a multitude of health care delivery settings. Understands medical-legal considerations involving health care delivery.			
Be professionally inquisitive, lifelong learners and teachers utilizing research, scholarly activity and information technologies to enhance professional knowledge and clinical practice. Reads, interprets, critically examines, and presents medical and scientific literature.
